

Section Boundary

The Idukki Wildlife Sanctuary involves Idukki wildlife range. It is formed of two sections namely Idukki and Kizhukanam. The boundary description of the sections is given below:

1. Boundary of Idukki Section

North: Boundary commencing from the left side of Cheuthony Dam goes along the dam upto the end of it and thence passes along the Northern limit of FRL of the Idukki Reservoir meeting the north west corner of the Idukki Arch dam and thence along the dam it runs along the FRL upto the point Thenppara at Kalyanathandu.

East: thence it crosses the Idukki Reservoir in a straight line to Chempakassery and follows Chempakasserithodu till it reaches Varattupara at 1068 M. Thence along the ridge till it reaches Choriyanthandu at 1192 M. Thence along the ridge till it reaches, Vanjoormedu at 1272 M. Thence it follows the ridge to reach height point 1013 M. and thence follows Venganamthandu to reach Idukki Reservoir FRL at Venganam.

South: thence it follows the FRL till it reaches Kilipothu, then it crosses the reservoir to reach Maruthum

West: thence it follows the FRL to reach the left bank of Cheruthoni Dam.
